The Nomination Committee makes the following proposals in respect of the Annual General Meeting 2022:

Prior to the Annual General Meeting 2022, a comparison of the Board fees in GARO with the Board fees paid in other comparable Mid Cap companies has been made, whereby the Nomination Committee has found that the now proposed Board fees are on market terms and reasonable in light of the expected work effort and the responsibilities of the Board.

**Auditor:** The number of auditors shall be one without deputies. In accordance with the Audit Committee's recommendation, the registered audit firm Ernst & Young AB is proposed for re-election as GARO's auditor for a period of one year until the end of the Annual General Meeting 2023. Ernst & Young AB has notified that the authorised public accountant Joakim Falck will continue as auditor in charge, if Ernst & Young AB is elected as auditor by the Annual General Meeting. The auditor's fee is proposed to be paid according to approved invoice.

### **3. Report on how the Nomination Committee has performed its tasks**

All members of the Nomination Committee have carefully considered and concluded that there is no conflict of interest or other circumstances making it inappropriate to accept the assignment as member of the Nomination Committee of GARO.

Three meetings have been held by the Nomination Committee. In addition, the Nomination Committee has had contact via telephone and email. The Nomination Committee has conducted interviews with all members of the Board of Directors, the Board's employee representative and with the CEO of GARO. The Nomination Committee has further taken note of the Audit Committee's recommendation regarding election of auditor.

The Nomination Committee has considered all tasks stated in the Swedish Corporate Governance Code under the responsibility of the Nomination Committee. The Nomination Committee has discussed and considered, inter alia, (i) to what extent the current Board of Directors fulfils the requirements that will be imposed on the Board of Directors as a result of GARO's business and development phase, (ii) the size of the Board of Directors, (iii) the different areas of competence that are and should be represented on the Board of Directors, (iv) the composition of the Board of Directors with respect to experience, gender and background, (v) remuneration to the members of the Board of Directors and (vi) questions relating to election of auditor and the auditor's fee. The Nomination Committee has applied rule 4.1 in the Swedish Corporate Governance Code as diversity policy, entailing that the Board of Directors shall, taking into account the company's business, phase of development and other relevant circumstances, have a suitable composition characterised by diversity and breadth of qualifications, experience and background among the Board members elected by the general meeting, as well as that an equal gender distribution shall be sought.

Finally, the Nomination Committee has, in order for the company to fulfil its information obligation to the shareholders, informed the company on how the Nomination Committee has performed its tasks and on the proposals that the Nomination Committee presents.

#### **4. Motivated statement by the Nomination Committee on the proposed Board of Directors**

The Nomination Committee has assessed the number of Board members and found that Board's current composition of seven members is suitable considering, inter alia, the company's current challenges, operations and geographical market range. Furthermore, the interviews conducted has strengthened the opinion that seven Board members is an effective and well-functioning number.

The Nomination Committee considers that the members of the Board of Directors of GARO are competent and have extensive experience regarding digitalization, electrical installations, temporary power, EV charging and charging infrastructure in a broad sense, technical innovation, economics, sustainability matters, capital market matters and financing matters, wholesale stages, customer service and changed customer behaviours, trend analysis, insight in transformation trends at business partners, communication and marketing and regarding Board work in general. The Board members have demonstrated a high level of commitment and the attendance rate at Board meetings has been high. The way in which the presidency has been managed is deemed to ensure an open and constructive dialogue within the Board.

In consideration hereof, the Nomination Committee has proposed re-election of all Board members and re-election of Rickard Blomqvist as Chairman of the Board.

Therefore, the Nomination Committee considers that the current Board members together constitute a Board which has the diversity and breadth of competence, experience and background required with respect to GARO's business, development phase and other circumstances.

The question of equal gender distribution within the Board should be given specific attention in relation to election of Board members. The proposed Board members comprise two women and five men (equivalent to approximately 29 and 71 per cent, respectively). The Nomination Committee's view is that the current gender distribution preferably could be improved.

In addition, the Nomination Committee has assessed the independence of the Board members. The Nomination Committee believes that its proposal regarding the composition of the Board in GARO fulfils the requirements of independence as stipulated in the Swedish Corporate Governance Code. In order to be able to evaluate the proposed members of the Board of Directors' independence in relation to GARO and the executive management, as well as to the larger shareholders in GARO, the Nomination Committee has obtained information on the proposed members of the Board of Directors. The Nomination Committee deems that all proposed Board members are to be regarded as independent in relation to GARO and the executive management. Five of the Board members are also to be regarded as independent in relation to major shareholders in GARO.
