### **3. Report on how the Nomination Committee has performed its tasks**

All members of the Nomination Committee have carefully considered and concluded that there is no conflict of interest or other circumstances making it inappropriate to accept the assignment as member of the Nomination Committee of GARO.

Six meetings have been held by the Nomination Committee. In addition, the Nomination Committee has had contact via telephone and email. The Nomination Committee has, through the Chairperson of the Board, been informed of the results of the Board evaluation and has also conducted interviews with all members of the Board of Directors and the Board's employee representatives. The Nomination Committee has further taken note of the Audit Committee's recommendation regarding election of auditor.

The Nomination Committee has considered all tasks stated in the Swedish Corporate Governance Code under the responsibility of the Nomination Committee. The Nomination Committee has discussed and considered, inter alia, (i) to what extent the current Board of Directors fulfils the requirements that will be imposed on the Board of Directors as a result of GARO's business and development phase, (ii) the size of the Board of Directors, (iii) the different areas of competence that are and should be represented on the Board of Directors, (iv) the composition of the Board of Directors with respect to experience, gender and background, (v) remuneration to the members of the Board of Directors and (vi) questions relating to election of auditor and the auditor's fee. The Nomination Committee has applied rule 4.1 in the Swedish Corporate Governance Code as diversity policy, entailing that the Board of Directors shall, taking into account the company's business, phase of development and other relevant circumstances, have a suitable composition characterised by diversity and breadth of qualifications, experience and background among the Board members elected by the general meeting, as well as that an equal gender distribution shall be sought.

Finally, the Nomination Committee has, in order for the company to fulfil its information obligation to the shareholders, informed the company on how the Nomination Committee has performed its tasks and on the proposals that the Nomination Committee presents.

#### **4. Reasoned statement by the Nomination Committee on the proposed Board of Directors**

The Nomination Committee has assessed the number of Board members and found that the proposed composition of six members is currently suitable considering, inter alia, the company's operations and geographical market range.

The Nomination Committee considers that the members of the Board of Directors of GARO are competent and have extensive experience regarding digitalisation, electrical installations, temporary power and charging infrastructure in a broad sense, technical innovation, economics, capital market matters and financing matters, wholesale stages, customer service and changed customer behaviours, trend analysis, communication and marketing, and regarding Board work in general. The Board members have demonstrated a high level of commitment and the attendance rate at Board meetings has been high. The way in which the presidency has been managed is deemed to ensure an open and constructive dialogue within the Board.

In consideration hereof, the Nomination Committee has proposed re-election of all Board members available for re-election and re-election of Rickard Blomqvist as Chairperson of the Board.

The Nomination Committee considers that the proposed Board members together has the diversity and breadth of competence, experience and background required with respect to GARO's business, development phase and other circumstances. In light of the company's future ambitions, and based on discussions with the proposed Board members, the Nomination Committee has identified a need to further strengthen the Board's competence in areas such as expansion, market, internationalisation and sustainability matters in the future to even better meet the company's future needs.

The question of equal gender distribution within the Board should be given specific attention in relation to election of Board members. The proposed Board members comprise two women and four men (equivalent to approximately 33 and 67 per cent, respectively). The Nomination Committee intends to continue its efforts to achieve a more equal gender distribution.

In addition, the Nomination Committee has assessed the independence of the Board members. The Nomination Committee believes that its proposal regarding the composition of the Board in GARO fulfils the requirements of independence as stipulated in the Swedish Corporate Governance Code. In order to be able to evaluate the proposed members of the Board of Directors' independence in relation to GARO and the executive management, as well as to the larger shareholders in GARO, the Nomination Committee has obtained information on the proposed members of the Board of Directors. The Nomination Committee deems that all proposed Board members are to be regarded as independent in relation to GARO and the executive management. Five of the Board members are also to be regarded as independent in relation to major shareholders in GARO.
