

Remuneration report 2025

Introduction

This report describes how the guidelines for executive remuneration of GARO AB, adopted by the annual general meeting 2022, were implemented in 2025. The report also provides information on remuneration to the CEO and a summary of the company's outstanding share-related and share price-related incentive plans. The report has been prepared in accordance with the Swedish Companies Act and the *Rules on Remuneration of the Board and Executive Management and on Incentive Programmes* issued by the Swedish Stock Market Self-Regulation Committee.

Further information on executive remuneration is available in note 7 (Employees and personnel costs) on pages 65-68 in the annual report 2025. Information on the work of the remuneration committee in 2025 is set out in the corporate governance report available on pages 108-112 in the annual report 2025.

Remuneration of the board of directors is not covered by this report. Such remuneration is resolved annually by the annual general meeting and disclosed in note 7 on pages 65-68 in the annual report 2025.

Key developments 2025

The CEO summarizes the company's overall performance in his statement on pages 10-11 in the annual report 2025.

The company's remuneration guidelines: scope, purpose and deviations

A prerequisite for the successful implementation of the company's business strategy and safeguarding of its long-term interests, including its sustainability, is that the company can recruit and retain qualified personnel. To this end, the company must offer competitive remuneration. The company's remuneration guidelines enable the company to offer executives a competitive total remuneration. Under the remuneration guidelines, executive remuneration shall be on market terms and may consist of the following components: fixed cash salary, variable cash remuneration, pension benefits and other benefits. The variable cash remuneration shall be linked to clear performance related criteria in easy and transparent designs. The criteria can be financial, non-financial or be individualized, quantitative or qualitative objectives. The criteria shall be designed to contribute to the company's business strategy and long-term interests, including its sustainability, by for example being clearly linked to the business strategy or promote the executive's long-term development. These criteria can include among others sales and earnings based financial criteria.

The guidelines are found on pages 67-68 in the annual report 2025. During 2025, the company has complied with the applicable remuneration guidelines adopted by the general meeting. No deviations from the guidelines have been decided and no derogations from the procedure for implementation of the guidelines have been made. The auditor's report regarding the company's compliance with the guidelines is available on www.garogroup.se/en/corporate-governance under the section for the annual general meeting 2026. No remuneration has been reclaimed. In addition to the remuneration covered by the remuneration guidelines, the annual general meeting 2025 resolved to implement a long-term share-related incentive plan.

**** Pension expense (column 4), which in its entirety relates to Base salary and is premium defined, has been counted entirely as fixed remuneration

Share-based remuneration

In 2025, GARO implemented a subscription warrant program for senior executives within the group, series 2025/2028. The purpose of the program is to, in an easy way, offer senior executives the opportunity to take part in the long-term increase in value that is related to GARO's joint goals and the strategic initiatives that shall be given priority within the group. The warrant program covers three (3) senior executives (excluding the CEO).

The warrants were acquired by the participants in 2025 at a calculated market price. Shares can be subscribed for during the subscription period from and including 30 June 2028 up to and including 15 December 2028 at an initial subscription price of SEK 28,37. The subscription warrants acquired by the CEO were repurchased by GARO at the calculated market price in 2025, in accordance with a pre-emption agreement between GARO and the CEO, due to the CEO terminating his employment with GARO.

Application of performance criteria for short-term variable remuneration

The performance measures for the CEO's short-term variable cash remuneration, which may not amount to more than MSEK 2 per year, have been selected to deliver the company's strategy and to encourage behaviour which is in the long-term interest of the company. In the selection of performance measures, the strategic objectives and short-term and long-term business priorities for 2025 have been taken into account. Also, the performance measures further contribute to alignment with sustainability as well as the company values.
